

Playa Tortuga ...

a Jungle Retreat with an Ocean View

Getting to Paisajes del Mar Playa Tortuga, Costa Rica

DRIVE:

Rent a car from one of the many car rental agencies (National, Budget, Thrifty, and others) at or near the airport in San Jose. Many companies will deliver a car to your hotel. From San Jose, travel southwest towards Cartago. Before you reach Cartago, take CA2 towards San Isidro del General over the 13k mountain range, Cierro de la Muerte (2 hours, 30 minutes). We don't recommend driving at night if you have not crossed these mountains before. During the day, the drive is much easier and the change in climate through the mountain range makes the trip very interesting. There are several places along the road to pick up souvenirs. You can stop for local sodas and Costa Rican snacks, or visit one of the many restaurants in San Isidro del General.

Once in San Isidro turn right at the new McDonald's and travel south towards Pacific coast and Dominical (1 hour) . From Dominical follow the Pacific Coast south again to Uvita (20min) where our property manager will meet you.

FLY:

From Juan Santamaria airport in San Juan, take local Sansa airline to Palmar Sur airport (approximately \$160.00 r/t), where you can arrange with your car rental company to drop off your car (www.solidcarrental.com is one company).

RENTAL CAR – PLAYA TORTUGA:

There are no car rental agencies in our area. You can, with prior arrangement, rent a car at Palmar Sur airport or Quepos. Most companies will deliver a car to you – and pick it up – for a small charge.
